THE CONTENT

This workshop includes recent eclectic contributions to international thought leadership in the profession fused with established procurement theory and real-life examples from numerous case studies.

Throughout the programme, you can compare a genuinely strategic approach to a developed but still transactional procurement effort.

Participants will gain a thorough vision of what STRATEGIC procurement looks like today in leading organisations, through the lens of many examples of best practices harvested from all around the world,

Importantly, participants will also get to consider the lessons of the COVID-19 pandemic for the supply side, and how to both manage the consequences now and mitigate risks for the future.

" Lift your thinking from the transactional to the strategic in less than two days "

THE PARTICIPANTS

This programme is designed for experienced procurement managers working to take their next step into a leadership role as well as experienced category managers, analysts and practicing procurement professionals. Some procurement knowledge is assumed.

It offers an intermediate level training & coaching approach to help you take the next step from transactional procurement to a more proactive approach and strategic mindset.

WHAT PREVIOUS ATTENDEES HAVE SAID:

"I went into the course with a relatively low expectation of receiving mountains of theory and not so many practical examples. To my absolute delight I found Jonathan's delivery to be extremely energetic. His ability to call on practical examples for almost every scenario discussed was outstanding. The examples were very real and stretched across many industries, scenarios and often strayed well beyond his own personal experiences."

Group Procurement Mgr Major Australian Corporation

"Engaging, enjoyable and informative with real-life, current examples. In my 30+ years as a procurement professional I've attended many courses and workshops. This one ranks up there with the best JD's style challenged as well as informed and created genuine participation and debate from the course members."

Phil Partridge Procurement Manager Electrix

"The course was absolutely fantastic and Jonathan was a breath of fresh air, especially his knowledge & personal experiences he shared with us. I took away so much from the course I would recommend it to anyone in my field."
